Request for a Declaration of Conformity

Dear Sir or Madam,

Thank you very much for your enquiry regarding the provision of the Declaration of Conformity and technical documentation in accordance with Regulation (EU) 2025/40 (hereinafter: PPWR).

We would like to draw your attention to the applicable legal framework: the PPWR does not establish any right to obtain the Declaration of Conformity or technical documentation.

The disclosure obligations under the Regulation are directed exclusively at the competent market surveillance or national authorities and only upon request (see Articles 15 and 18 and Annex VII of the PPWR). The Declaration of Conformity and technical documentation are instruments of official market surveillance. They are not subject to any statutory right to information between economic operators. The PPWR does not provide for any independent legal claim on the part of downstream economic operators. Nor does any contractual right to such disclosure exist.

Furthermore, the technical documentation contains confidential business information and is provided to authorities only upon a justified request and not proactively. Irrespective of the above, we confirm that the conformity of our packaging is ensured and that we fully comply with our obligations under the PPWR.

Kind regards

Evangelos Mpouras
Technical Director
